

# Visual Guide

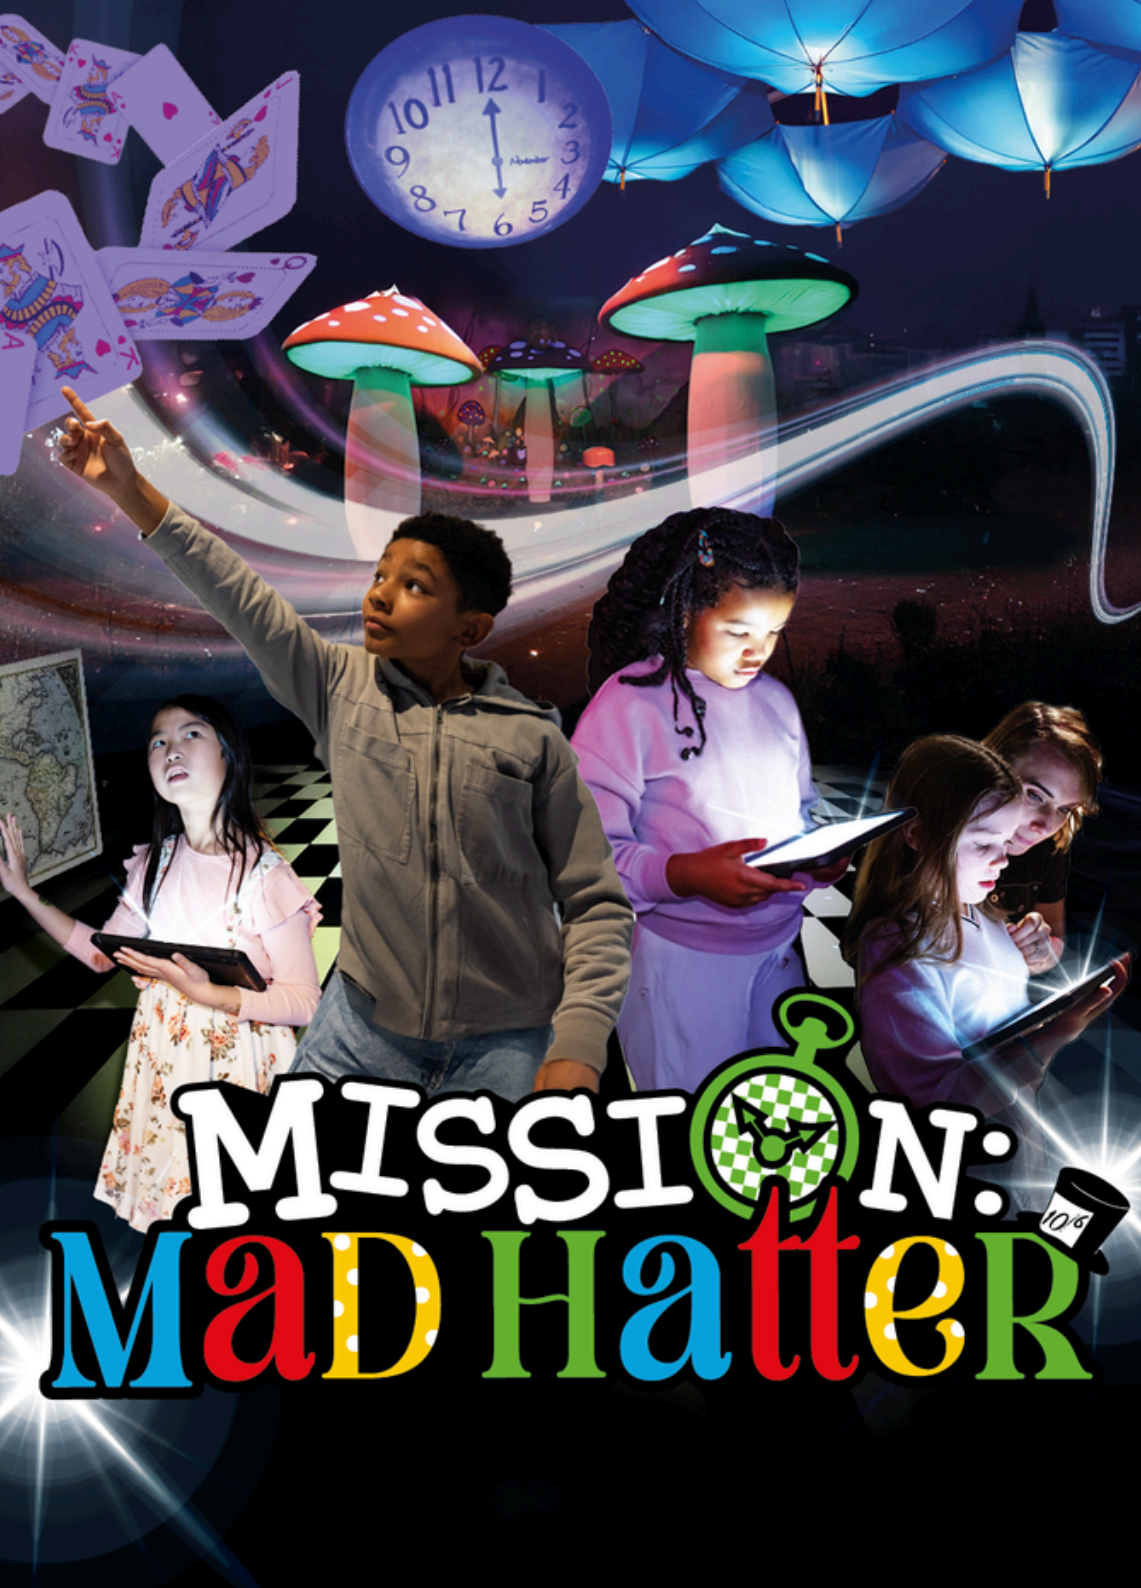

## What to expect in Mission: Mad Hatter

This pack is designed to help familiarise you and your group/family with Mission: Mad Hatter. It highlights lighting, sounds, and themes and some useful info for your visit.

### When you arrive -

**Check in at the Box Office with our friendly team, they'll tell you where to go.**

We have different people who play the Mad Hatter. They will tell you all about the experience, give you your tablet and send you on your mission!

Our staff will be in a purple Z-arts t-shirt.

One of our Mad Hatters!

## Mission: Mad Hatter is an interactive quest

### What to expect -

**You have 75 minutes to rescue the Mad Hatter's missing tea party guests!**

We run timed sessions every 20 minutes, so it's important to arrive on time – late arrivals may not be admitted.

**The Mad Hatter will explain what you need to do and how to use your tablet.**

You'll also get the chance to practice with the Mad Hatter.

### Lighting and Sound

There are many rooms each with slightly different lighting. Atmospheric music and sound effects will play in the background to help set the scene.

### While you're in Mission: Mad Hatter -

**Together, you'll move through Wonderland, solving clues, riddles and puzzles along the way!**

Working as a team is super important, everyone can help out.

### Need any help?

Your tablet has a handy hint button, or you can ask the Mad Hatter if you get really stuck. There's also a plain English version available.

### Complete the quest in time!

Make sure you take a photo with your team afterwards, and share it with us on socials too!

**Let us know if we can do anything to make your visit better - we're always happy to help!**
